Professional Summary

Design leader bridging brand systems, product UX, and global go-to-market execution for hardware-software ecosystems. Over 12+ years, I have led UI/UX collaboration, integrated campaigns, and design operations across 10+ products, multi-million dollar launches, and platforms serving 1.2M+ users. Known for translating complex technology into clear, commercially effective product and brand experiences across the US, Europe, China, Japan, and Taiwan.

Leadership Highlights

- Led global design execution across US, Europe, China, Japan, and Taiwan teams.
- Built scalable brand, product launch, and design standards for hardware-software ecosystems.
- Guided UI/UX direction and design review across app flows, product touchpoints, and launch assets.
- Integrated AI-assisted creative operations, reducing asset production time by 50%+.

Professional Experience

POSITIVE GRID Limited - Design Manager

Taipei, Taiwan | September 2019 - January 2026

Led design strategy and brand execution for Positive Grid's global ecosystem, spanning hardware, software, mobile app interfaces, product packaging, retail experiences, campaigns, and international exhibitions. Partnered with product, engineering, marketing, and regional teams to connect brand direction with app flows, cross-device experience, and launch execution.

- Directed visual strategy for 10+ hardware and software products, including Spark 40, Spark MINI, Spark GO, Spark EDGE, Spark LIVE, Spark Link/XLR, RIFF, Spark App, BIAS FX 2, and BIAS X.
- Led product launch campaigns that generated multi-million dollar global crowdfunding performance and helped secure #1 Best Seller status with major retailers including Sweetwater and Thomann.
- Integrated Generative AI tools such as Midjourney and Adobe Firefly into creative production, reducing asset production time by over 50% while increasing creative output.
- Orchestrated design collaboration across executives in the US, designers in Germany, branch teams in China, partners in Japan, and internal teams in Taiwan across R&D, marketing, logistics, and CS.
- Maintained brand consistency across app interfaces, product packaging, sales channels, trade shows, localized services, and physical retail touchpoints.
- Led UX direction and design review across app flows, cross-device touchpoints, campaign systems, launch assets, and global design standards.

COBINHOOD / DEXON Foundation - Art Director

Taipei, Taiwan | August 2017 - August 2019

Led a multidisciplinary design team for a high-frequency fintech and blockchain ecosystem, translating complex product and infrastructure concepts into clear brand identity, interface, and event experiences.

- Won the 2018 Red Dot Award in Communication Design for the COBINHOOD Exchange interface.
- Managed dual-brand strategy for COBINHOOD, a crypto exchange, and DEXON, a public blockchain.
- Supported COBINHOOD Exchange growth to a global top-8 ranking by trading volume through trust-building product and brand design.
- Led interface design for DEXON.ORG, DEXON Wallet, and DEXONSCAN, shaping one of Taiwan's native blockchain ecosystems.
- Directed visual experiences for international roadshows, blockchain summits, and hackathons.
- Built a visual language balancing high-technology credibility with approachable product storytelling.

EZTABLE - Design Team Lead / Senior Designer

Taipei, Taiwan | August 2013 - March 2017

- Led design team efforts to unify the O2O reservation platform experience across web and mobile.
- Designed UI/UX for a platform serving 1.2M+ registered members and handling 10M+ online reservations.
- Built the corporate identity system and brand guidelines to support global expansion across Taiwan and overseas branches.
- Standardized visual assets for product and marketing teams across Asia.
