BRAND GUIDELINES

**The future sounds
like**

this_____

“

Music has always been a matter of energy to me, a question of fuel.

Sentimental people call it inspiration, but what they really mean is fuel. I have always needed fuel. I am a serious consumer.

On some nights I still believe that a car with the gas needle on empty can run about fifty more miles if you have the right music very loud on the radio.

HUNTER S. THOMPSON

01

Brand Strategy

**MUSIC IS
THE FUEL
FOR LIFE.**

It's positively powerful.

Brand Manifesto

A brand manifesto is an assemblage of primary beliefs that give rise to what, how and why the organization exists, and serves to inspire and unite the organization and its employees' efforts.

Each belief is distinct and complete, intended to directly inform each pillar of the organization's differentiation. Together, this set of beliefs form a manifesto that is greater than the sum of its parts.

MUSIC has the power to **ENHANCE LIFE** with an **AMPLIFIED** sense of **SATISFACTION** and **ACCOMPLISHMENT**. You can feel it in your bones.

We want to **EXPRESS** ourselves creatively as **HUMANS**—to be **HEARD**. But practice can feel like suffering, and so many things get in the way of making music, despite its **POSITIVE** impact on our lives.

EVERYONE deserves to **PLAY**. Creating music should be **EASY**. Technology can make this **POSSIBLE**—absolutely nothing should get in the way. Music **EXPANDS** our ability to **FEEL** and **CONNECT**.

It's how we **RELATE** to one another and build **COMMUNITY**. It's **ELECTRIC**.

Losing yourself in the music **AWAKENS** the deepest dimensions of **JOY**. This can unlock new levels of **SELF-DISCOVERY**, comprehension and **AWARENESS** that are nothing short of **LIFE-ALTERING**.

Differentiation Pillars

Differentiation pillars define what, how and why the organization exists and is of unique value. Each pillar is distinct and defines a specific role with a clear job-to-be-done by the organization.

No one pillar is intended to define all that the organization offers. Collectively, the pillars comprise the absolute value of all the organization provides to its audience.

The Portal to paradigm-shifting, integrated and interactive music technology that unlocks limitless possibilities to unleash the power of sound.

The Push that motivates and makes space for all music-makers to explore and create. The fuel to jump-start, jam, produce or even get on stage—to just play.

The Potential to break through any barriers with purpose-driven, accessible, frictionless solutions at the highest quality for unstoppable music-making.

The Pulse that unites the individual musician, all other players, and the collective industry by providing the platform for true connectivity that advances how we play, create and share music.

State of Flow. The embodiment of musical-immersion which offers refuge, release and real rhapsody that empowers capability and self-confidence for the trust to go beyond yourself.

Purpose

The brand purpose represents the organization's reason for being and what it stands for above all else—the higher-order outcome around which employees rally and strive to deliver on for the audience.

Ensure making music
is always life-altering.

02

Company Strategy

Company strategy is an internal tool for business planning; these are key components of what can be a larger strategy framework. Its language is not intended for external communications. However, it should be used to guide and inform marketing messaging.

PLAYING, CREATING & ENJOYING MUSIC,

on your own or with others,
lets you dive into a place
there's no other way to reach.
A place where you can truly let go.

Positioning

Positive Grid designs integrated and interactive music technology that delivers a frictionless experience with true connectivity for anyone seeking to remove all barriers to making music.

Vision

Forever transforming all the ways people create, consume and connect with music to deliver life-altering experiences.

Audience

PLAY MORE.

Beginner

LEARN TO PLAY

Anxious. Just starting out, hungry to learn and improve, but may need a push sometimes to keep going.

Amateur

LOVE TO PLAY

Passionate. Not beginner, not pro—may not even be an excellent player, but is perserverent and has an unwavering love for guitar.

Enthusiast

EXCITED TO PLAY

Enthusiastic. Always down to play no matter what. Loves everything guitar, buys a lot of gear, can’t get enough.

Revivalist

RETURN TO PLAY

Nostalgic. Let life get in the way, gear got shoved into the closet and feels there is never enough time, but yearns to get back into it.

Adventurer

CRAVE TO PLAY

Unsatiated. Creatively feels the call, the need to play, like an itch they have to scratch, like an addiction or a guilty pleasure they need to fulfill.

Pro

DRIVEN TO PLAY

Experienced. Seasoned professionals that have commercial need to play, but may forget to jam just for the sheer joy of it.

Playing guitar is not always a linear path. Different mindsets and levels of skill can all plug in and play more. We should meet them wherever they are along their journey.

**BRING “WOW.”
TAKE-ON RISK.
STAY CURIOUS.
THINK HUMAN.
BE POSITIVE.**

Values

Company values are used as an internal tool to establish the organization's mindset and inform behavior. Its language is not intended for external communications.

Bring “Wow”: Strive to be bold, break through walls and go beyond what's expected to have a profoundly positive impact on ourselves, our customers, our partners and the entire music industry.

Think Human: Embody social intelligence that aims to understand, seeks magic in the mess, and takes a stand for inclusivity out of dedication to a higher purpose.

Take-on Risk: Understand the value of pursuing ideas over perfection and striking a smart balance with profitability to best support the health and growth of the business.

Be Positive: Embrace the unknown and be open to all forms of change with constructive optimism to build confidence and fuel the evolution of self, team and the organization.

Stay Curious: Commit to seeking, learning, growing, and sharing as the key to inspiring and motivating ourselves and everyone who relies on us.

03

Messaging

Yet, even

**WHEN YOU
FEEL THE
MUSIC
CALLING,**

things get in the way—creative block, gear that can't keep up, juggling responsibilities—so music gets put on hold. We feel it too, and...

Learn
more.
Faster.

SMART GUITAR AMPLIFIERS

SPARK MINI

Positive Grid®

Character

We behave...

Intelligent

Conscientious, comprehensive and critical, yet emotionally aware.

Audacious

Bold and driven yet liberating and adventurous.

Ingenious

Imaginative, inventive, and uncompromising even in the face of risk.

Attuned

Relatable, empathetic and understanding of others.

Play(ful)

Positive and engaging with a bit of spark [not juvenile, not comical, not random].

The brand character is a set of human behavioral traits. The brand embodies this personification, however and wherever it comes to life, to give its audience a way to have a relationship with it.

Voice

We speak...

Smart

Sharp, well-informed and always on-point.

Never pretentious or condescending.

Compelling

Inspiring and motivating, yet real and direct.

Never patronizing or purely persuasive, fake, or arrogant.

Intentional

Definitive and clear, and as simple as possible.

Never diluted or droning on-and-on.

Natural

Easy, effortless and subtly conversational.

Never trendy, too casual or overly colloquial.

Quick-witted

Sophisticated range of humor, yet relevant with a bit of vigor.

Never biting, silly or over-the-top.

The brand voice sets the tone relative to the brand character for a human expression that engages the audience.

MESSAGING—FRAMEWORK		The guidelines or filter for marketing strategy and copywriting.		
DIFFERENTIATION PILLARS	MESSAGING MARKETING TOPICS	INSPIRATION FOR COPYWRITING		
	WHAT	HOW	WHY	
	The Portal	Music Technology Play, Create, Consume (category-level)	paradigm-shifting, integrated and interactive (in ways) that unlock limitless possibilities	—to unleash the power of sound
	The Push	Fuel—Motivation	makes space to explore and create— jump-start, jam, produce or even get on stage	—to just play
	The Potential	Purpose-driven Offering Products, Services, Collaborations, etc. (product-level)	accessible, highest quality, frictionless solutions	—to break through any barriers for unstoppable music-making
	The Pulse	Platform + Community	true connectivity that unites the individual musician, all other players, and the collective industry	—to advance how we play, create and share music
	State of Flow	Empower Capability	embodiment of musical-immersion which offers refuge, release and real rhapsody	—to build self-confidence for the trust to go beyond yourself

Unleash your sound.

SMART GUITAR AMPLIFIERS

SPARK

Positive Grid®

DO

Be smart. We are knowledgeable and well-informed. Seek expert insight to focus the message.

Inspire. Be a compelling force that steps up to motivate when necessary.

Be *very* intentional with your words. Be clear, and concise with as few words as possible to get the idea across.

Speak naturally. Write conversationally. If you can't say it smoothly and easily out loud, it's wrong.

Be playful (yet sophisticated), where it works, but don't force it for its own sake.

Use the messaging framework (pg. 20) !!
For more messaging examples, refer to Applications (pg. 40).

DON'T

 Don't try to outsmart anyone or lecture. We are not pretentious and don't look down at our players.

 Don't be afraid to be bold, but don't get too pushy or become persuasive.

 Don't drone on and on. Say only what is necessary. Keep it simple. If it feels long, it is.

 Don't try to sound too cool, using trendy slang, flowery or complicated language.

 Don't be too serious, go for cheap laughs, or try to be overly clever or too cute.

If you're not communicating through one of the brand pillars or the messaging doesn't deliver on the *what, how, why* within the framework, then it's off-topic and off-brand.

Visual Identity

...we face these same things.
We're with you. We want
you to reach that place,

**WHERE YOU
CAN DEEPLY
CONNECT
WITH MUSIC**

more easily and as often as possible.

Overview

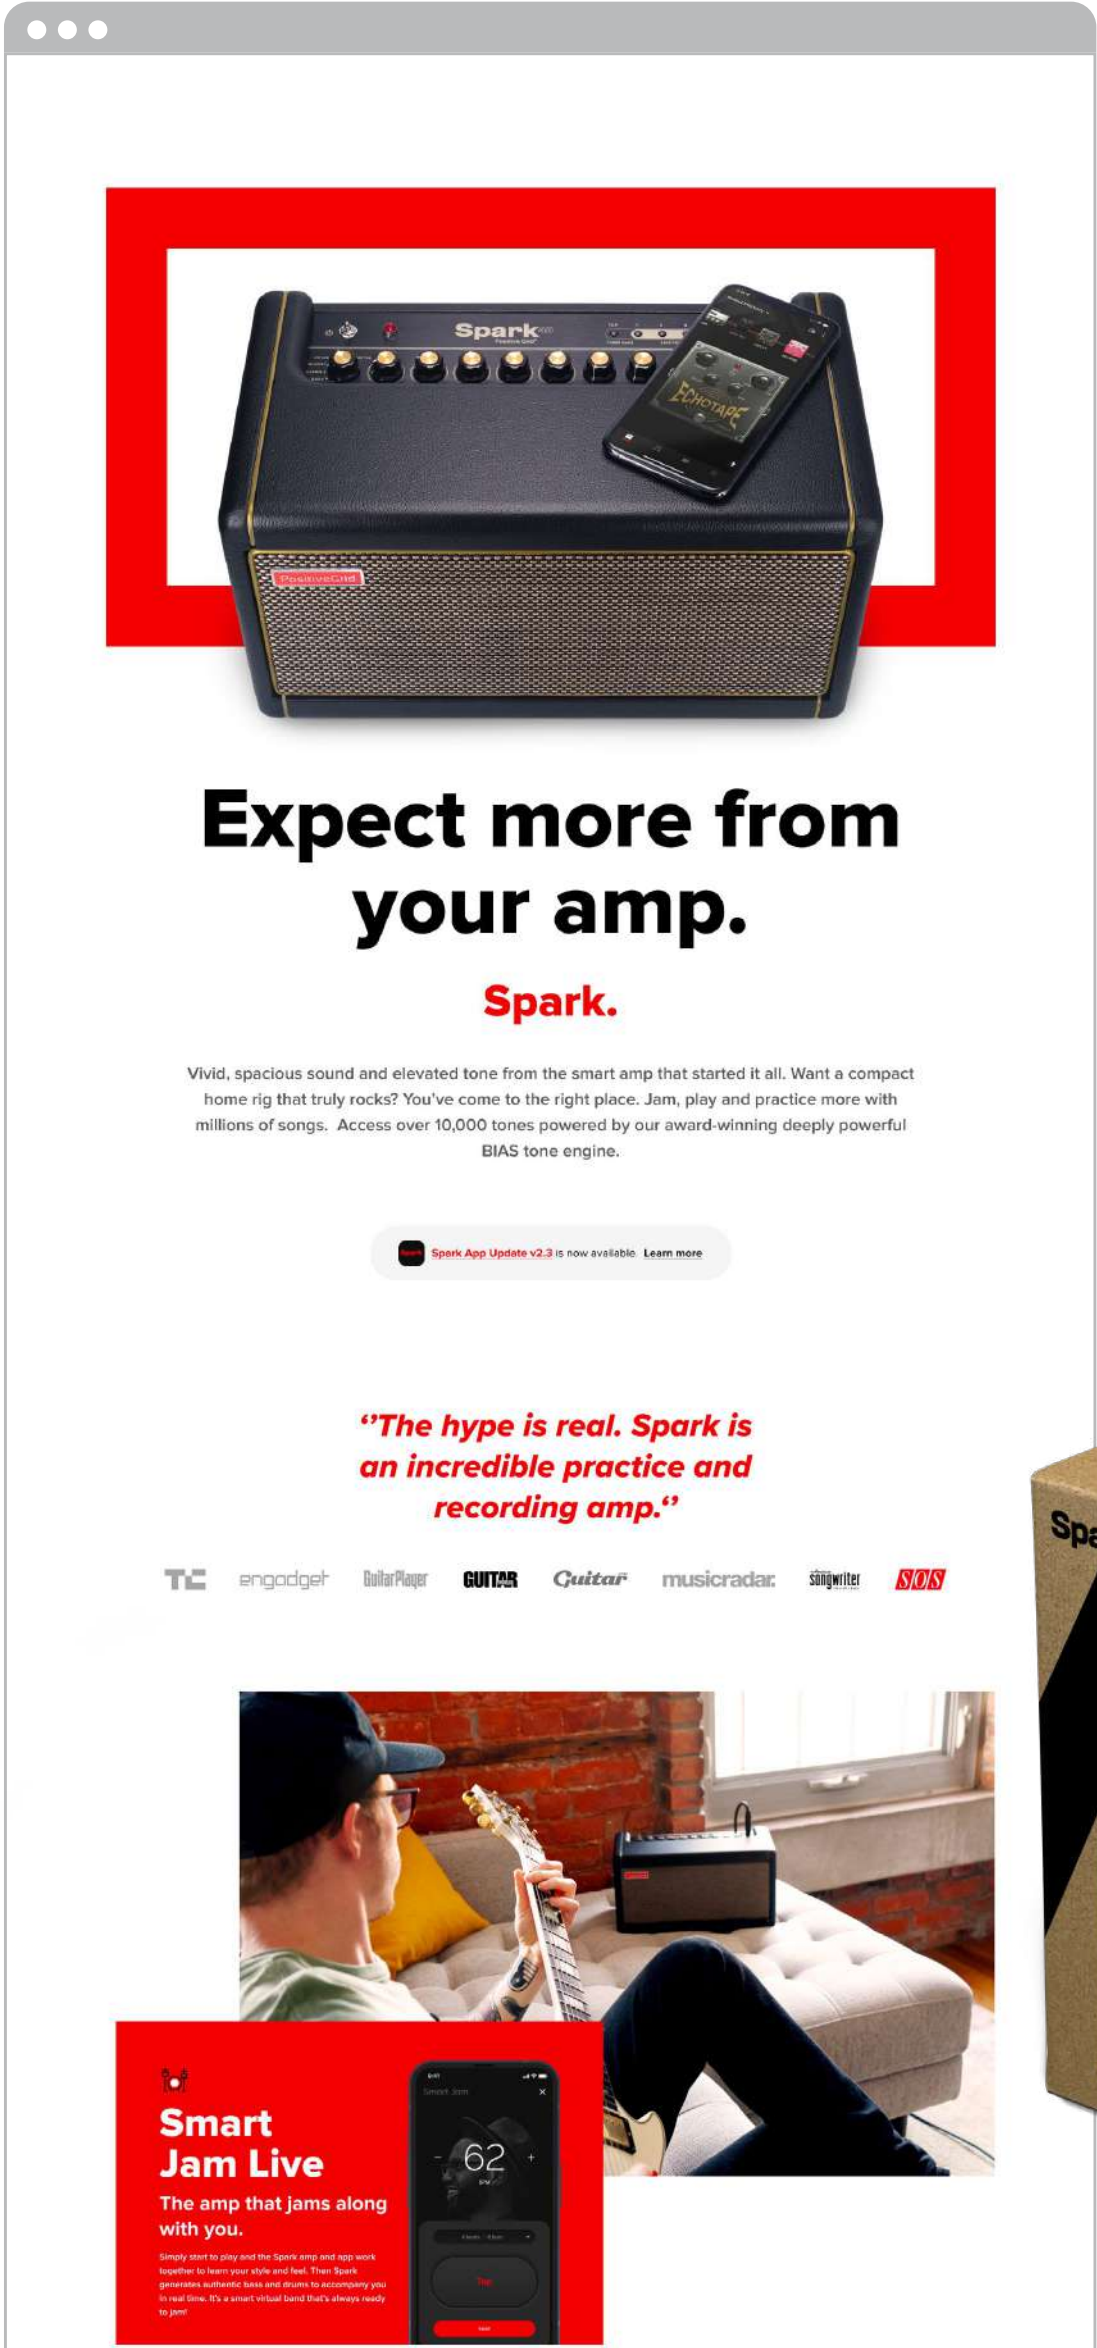

BEING *BOLD SPOKEN*

The look and feel of Positive Grid is simple and bold, driven by powerful messaging and clean, striking graphics. Solid shapes, bold geometry, high contrast color and a tendency to break out of the mold and do things differently.

We are red. We are bold. We are outspoken, and unafraid to be a little rebellious.

Positi

Play like never before.

GUITAR AMP & EFFECTS SOFTWARE

BIAS FX 2

Positive Grid®

Logo

NOTES

- Primary usage of the logo is horizontal. Vertical (reading downward) is permissible as a bolder secondary option and can be used as needed for space or style, on occasion).
- **Do not** change logo colors. Use official color variants, provided (pg. 29).
- **Do not** outline or add strokes.
- **Do not** rotate other than as shown.

Positive Grid®

PRIMARY: HORIZONTAL

Positive Grid®

SECONDARY: VERTICAL

CLEARANCE

Emblem

NOTES

- Usage of the Positive Grid emblem is restricted to physical product applications, or direct references such as illustrations of product.
- Emblem letter spacing has been altered for improved readability as extrusion or embossing. Do not use the emblem for graphic purposes.

PRODUCT EMBLEM

SIMPLIFIED GRAPHIC REFERENCE

Color

Positive Grid is recognizably *red*, which should be featured prominently and proudly as an iconic asset. Colors should be often used in high contrast and command attention.

NOTES

- **Do not** use colors not specified here.
- Yellow is restricted to use with BIAS FX 2 communications, and can substitute some uses of red to differentiate where applicable.*
- Where subtlety is needed, light tones of cool gray can be used to break up space softly.

R 187 G 188 B 188

WHITE

FFFFFFFF
C 0 M 0 Y 0 K 0
R 255 G 255 B 255

*Use the RGB values specified here for Pantone 186 when working digitally rather than using color conversions provided by Pantone or elsewhere. Colors labelled (TBD) are considered not final and are subject to change.

Color

NOTES

- **Do not** use any color variations other than those shown here.
- When placing the logomark on photography, use the white logo version. If legibility is compromised, consider modifying or changing the background to not conflict with the logo.
- Prioritize the logo on red for primary branding (covers, intro slides, etc), where applicable, supported by the red logo on white.
- Black logo should only be used where a single black ink restriction limits printing color versions (ie. some shipping labels/cartons).
- Body copy can be displayed in black to remain bold, or 7540 to soften it. When using copy on red, use white.
- If headlines are crossing both red and white backgrounds, use black type.

PRIMARY

Positive Grid®

...on light backgrounds

Positive Grid®

...on red background

SECONDARY

Positive Grid®

Positive Grid®

...on dark / photography

Symbols & Icons

Icons can be used to represent products and their features and convey complex ideas and features, such as Smart Jam and Auto Chords, into quickly identifiable symbols.

NOTES

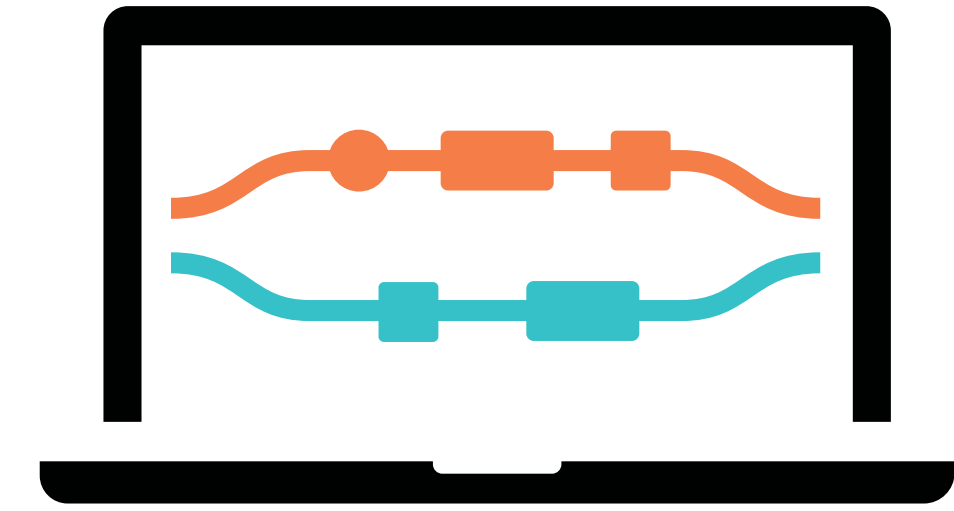

- Do not modify or create additional icons without prior approval.
- Icons can be inverted to be used on red. Use white lines with black accent instead of red, in those cases.

Typography

Positive Grid has a strong point of view, reflected and driven by powerful, relevant messaging. Typography should remain simple and conversational—becoming more bold when needed.

NOTES

- **Do not** use fonts or typefaces outside of those specified here without prior approval.
- Favor sentence-case for brand messages and headlines. All-caps can be used for bolder messaging and product titles.
- Title case can be used for proper nouns such as product names and categories.

Proxima Nova

*For additional type examples and usage references, refer to Applications (pg. 40).

VISUAL IDENTITY

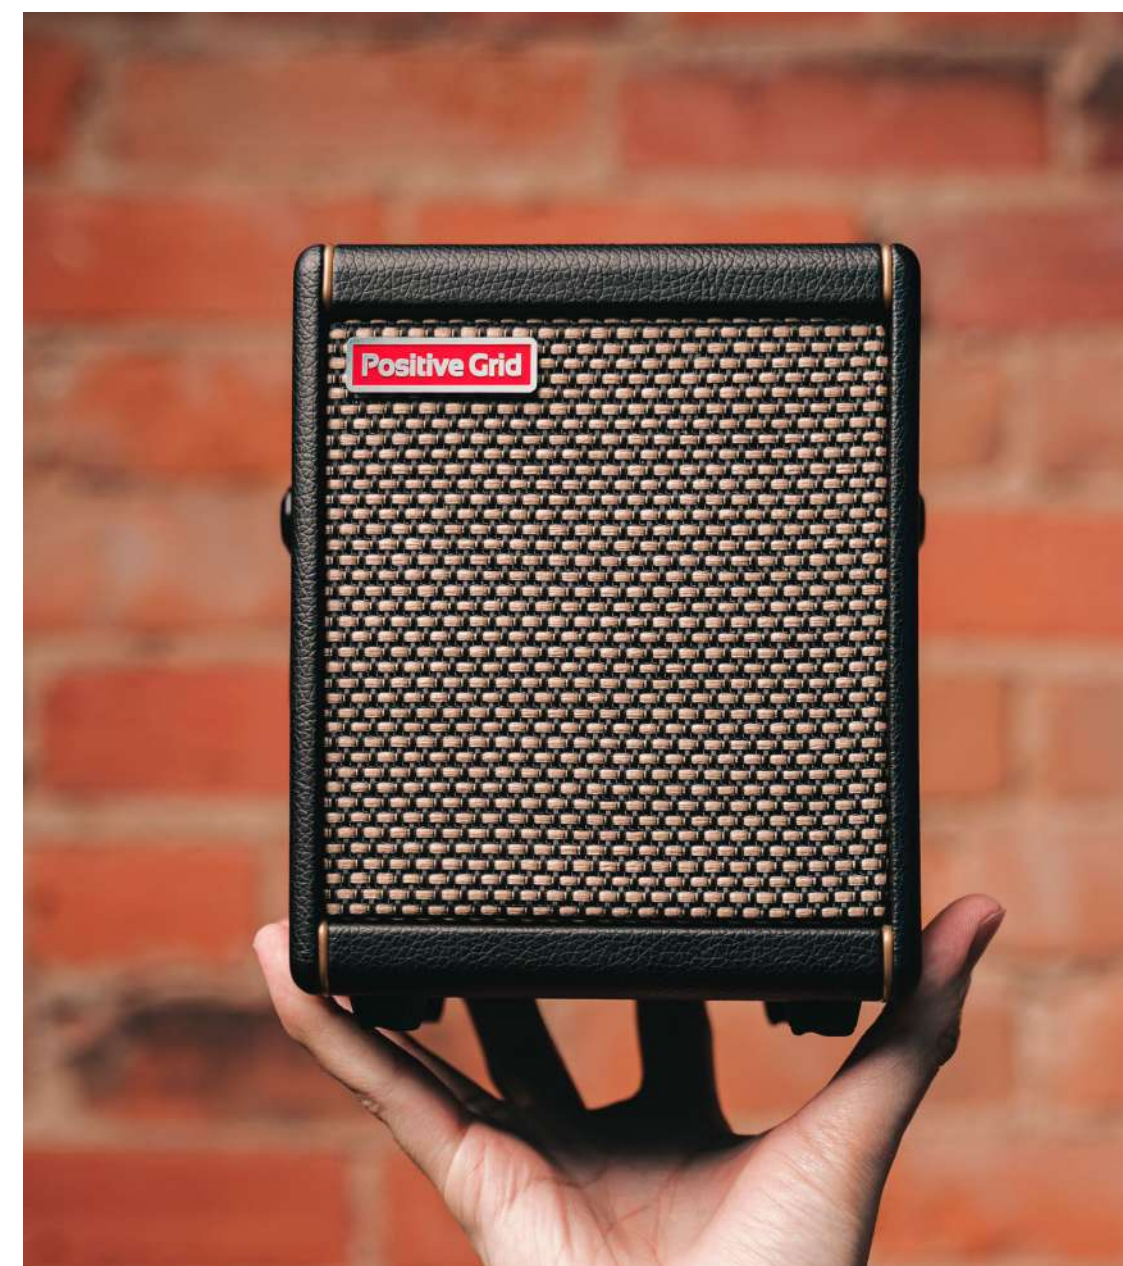

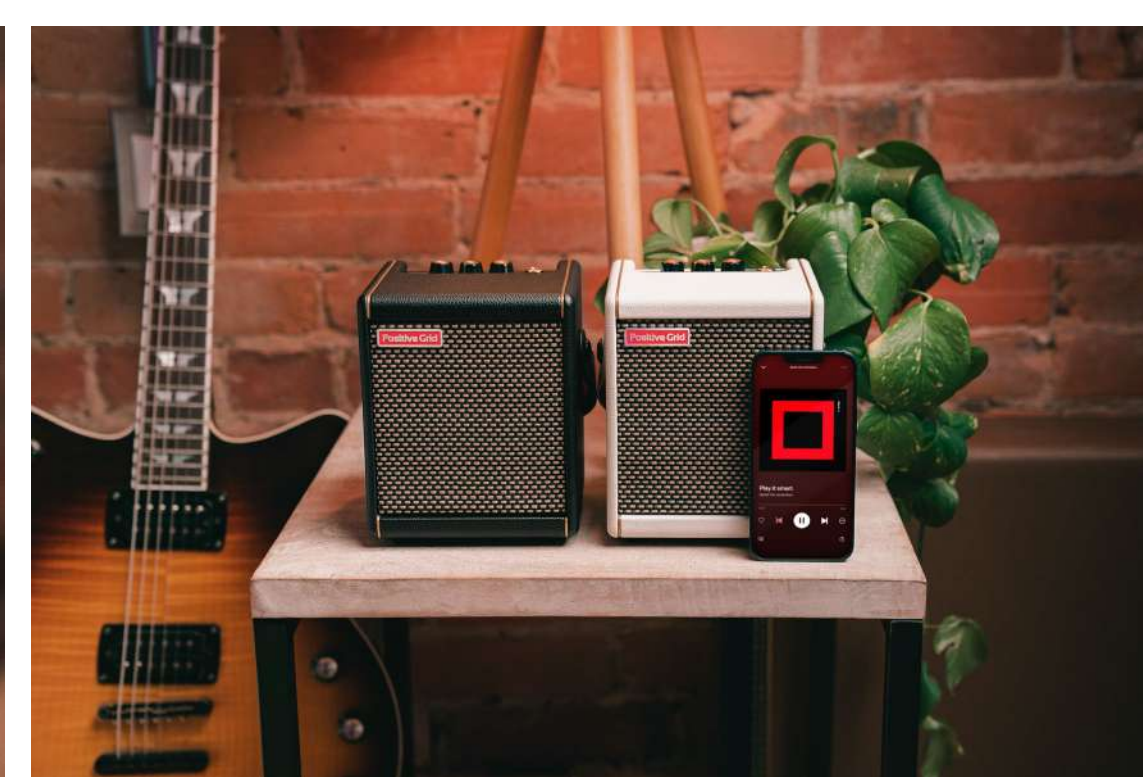

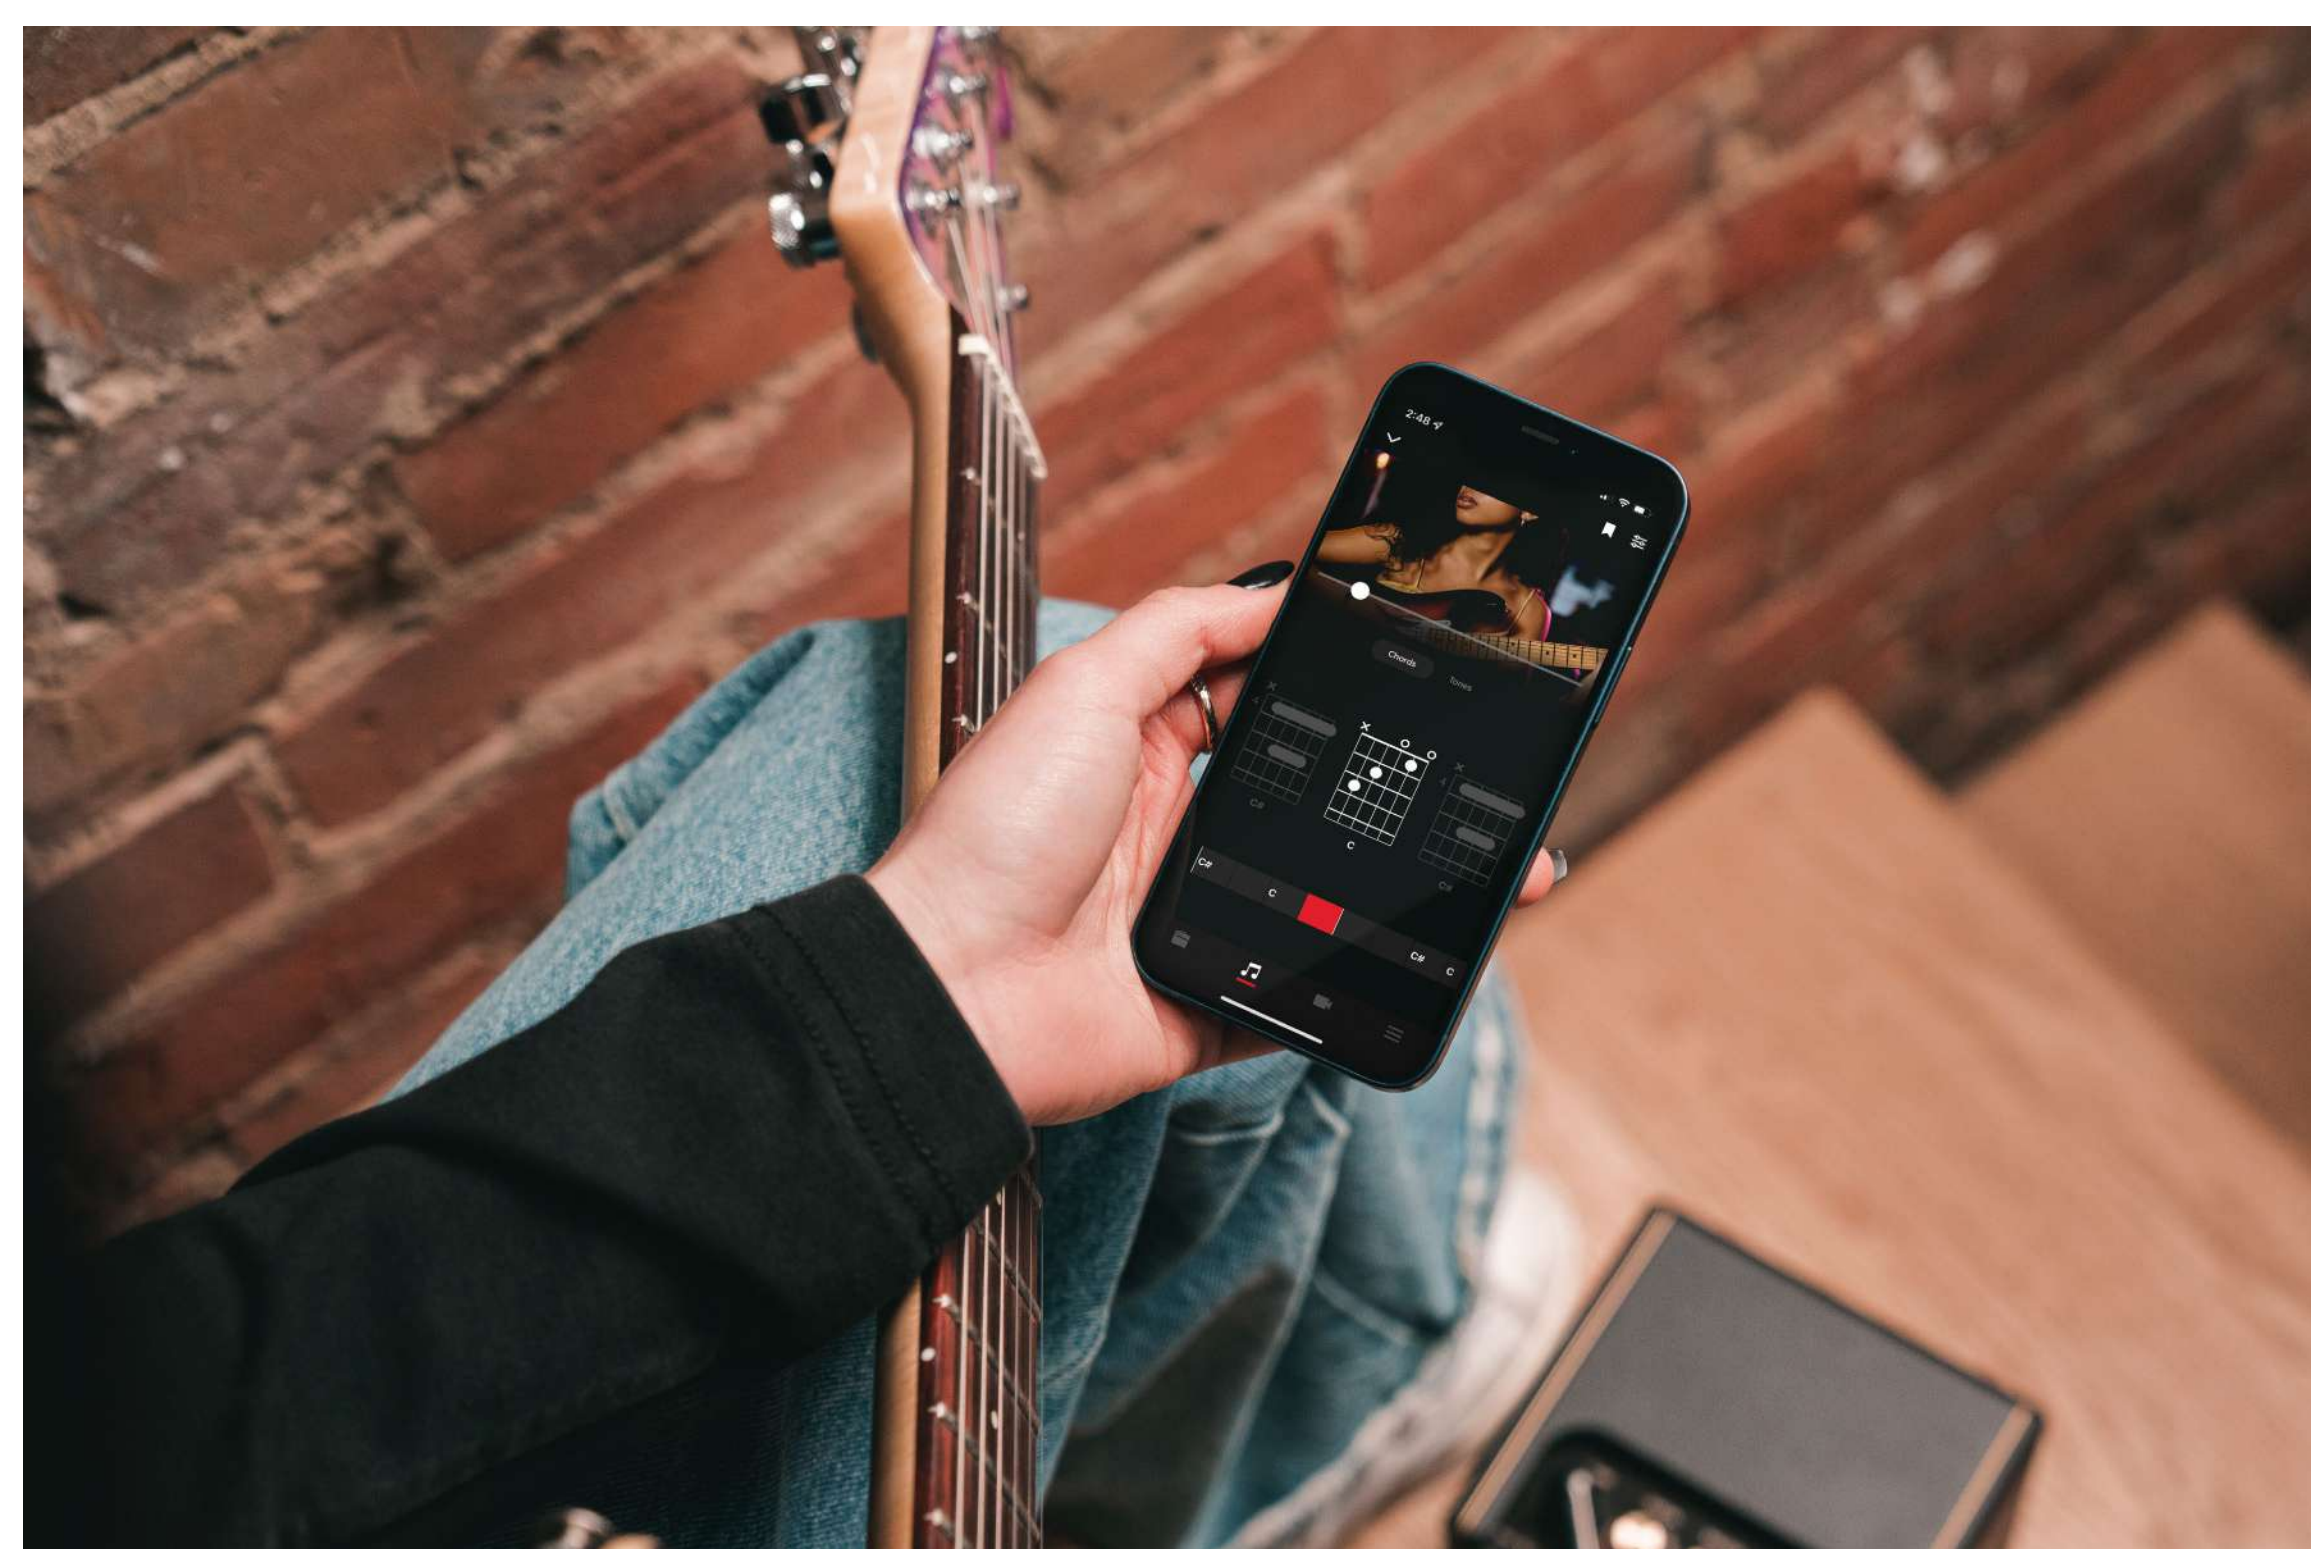

Photography

Where the branding is bold and clean, the photography of Positive Grid aims to bring real life, natural texture and warmth to the experience of the products. The images should convey a range of emotion from deep state of flow, when really into the music, to sheer joy, and high energy, when the sound is most compelling and can be felt.

NOTES

- **Do not** have talent pose or play to camera.
- Capture authentic, even candid, and natural moments.
- Environments should not be stale or cold, but warm, and human, a little gritty, worn, and *real*.
- Feature integrated experience that mixes analog and digital with ease.

BRAND GUIDELINES | 2022.06.30

Positive Grid®

PLUG IN. PLAY MORE.

VISUAL IDENTITY

NOTES

- Don't be afraid to let the talent have fun and show some attitude. Remember, people truly *love* these products.
- Feature a mixture of characters, and many walks of life, different levels of guitar and music players.
- Showcase how the products allow for playing like never before, and doing things differently.

VISUAL IDENTITY

NOTE: Spark Series amps should always feature the app along with the amp for key imagery (key visuals, thumbnails), whenever possible.

Perspective angles that show the product dimensions and controls are preferred for key images.

NOTE: Spark App can be featured on various devices (tablet, mobile), generally. Cater device to the need of the communication).

VISUAL IDENTITY

NOTE: BIAS FX 2 can be featured on various devices (desktop, laptop), generally. Cater device to the need of the communication (such as a home studio or mobility).

NOTE: RIFF should always establish BIAS FX 2 along with the interface as a combo product for key and intial visuals (key visual, thumbnail, etc).

All guitars welcome.

GUITAR INTERFACES

RIFF

Positive Grid®

Usage

Do not place products on off-brand colors (especially not green). Brand colors, neutrals, or photography are acceptable.

Do not rotate logo. Vertical, reading down is permissible.

Do not use unretouched or unapproved photography.

—more usage and restrictions to be determined and outlined in future updates..

Music is the fuel for life.

It's positively powerful. Playing, creating and enjoying music, on your own or with others, lets you dive into a place there's no other way to reach. A place where you can truly let go. Yet, even when you feel the music calling, things get in the way—creative block, gear that can't keep up, juggling responsibilities—so music gets put on hold.

At Positive Grid, we feel it too, and we face these same things. We're with you. We want you to reach that place, where you can deeply connect with music more easily and as often as possible. We make the gear to get you there. The fuel to jump-start, jam, produce or even get on stage—to just play.

Because absolutely nothing should get in the way.
