POSITIVE GRID Limited. Taipei, Taiwan. September 2019 - Present
Design Manager

Positive Grid®

Over the past six years, I have led design strategies and partnered with cross-functional teams to evolve the brand's ecosystem from the ground up—spanning hardware, software, and physical retail experiences. My role involves orchestrating visual strategies for product launches, from the inaugural Spark 40 to the recent Spark 2 and Spark LIVE, ensuring a cohesive brand identity across app interfaces, packaging, and global exhibitions.

Recently, I have integrated Generative AI into our creative workflows, synchronizing cutting-edge tech with traditional photography to elevate visual storytelling. I actively collaborate with diverse stakeholders—including executives in the US, designers in Germany, branch teams in China, and third-party partners in Japan—alongside internal squads in Taipei (R&D, Marketing, Logistics, and CS), fostering a culture of agile communication and seamless execution across time zones.

在過去六年間，我主導設計策略並與跨國團隊緊密合作，協助品牌生態系統從零到一的建構與進化，涵蓋硬體、軟體及實體零售體驗。線上的品牌視覺傳播與銷售，線下的在地化服務與實體展示。我的職責在於協調產品發布的視覺策略，從初代 Spark 40 到近期的 Spark 2 與 Spark LIVE，確保在 APP 介面、產品包裝及全球展覽中維持一致的品牌識別。

近年來，我將生成式 AI 導入創意工作流程，將新技術與傳統攝影整合，提升視覺敘事的層次。積極與多元的團隊協作，包含美國的高階主管、德國的設計師、中國分公司團隊及日本的第三方合作夥伴，並與台北內部的研發、行銷、物流及客服團隊並肩作戰，在跨時區的環境中建立敏捷溝通與無縫執行的合作文化。
